

**Chess Olympiad: Gukesh's brilliance helps India pip
Germany — a very long headline that must wrap
across multiple lines to prove the word-wrap works**

Coverage: 11 sources — 4 left / 4 centre / 3 right

Neutral summary

India edged past Germany in a tight sixth-round match at the Chess Olympiad, with D Gukesh producing the decisive victory on the top board. The 18-year-old grandmaster converted a grinding endgame advantage after nearly five hours of play, keeping India's gold-medal hopes alive — the team now sits alone at the top of the open section table.

The women's team crushed Uzbekistan 33/4–0 in a dominant display. "We prepared specifically for their openings," said the captain, "and the preparation paid off." Notable performances included a trademark pawn sacrifice on move 17... and a rook endgame technique the commentators called "vintage".
